

STANDINGS DETERMINATION 2010 REGULAR SEASON

The following criteria will be used to determine the rankings of teams during the regular season.

1) WINNING PERCENTAGE

Winning Percentage is calculated as followed:
$$\text{Pct} = \frac{\text{Wins} + (0.5 \times \text{Ties})}{\text{Games Played}}$$

2) HEAD-TO-HEAD RECORD

Head-to-head only applies if all tied teams have played each other. *Head-to-head record is not incorporated into the website divisional stats.*

3) WINS

If still tied, the team with the most wins will receive the higher rank.

4) LOSSES

The least amount of losses does not apply when determining playoff seedings, but may apply during the regular season.
e.g. An 0-2 team will be ranked higher than an 0-4 team.

5) RUN DIFFERENTIAL

Run Differential is calculated as followed:
$$\text{RD} = \text{Runs For} - \text{Runs Against}$$

6) RUNS FOR

The team with the most runs for will receive the higher ranking.

7) RUNS AGAINST

The team with the least runs against will receive the higher ranking.

If teams remain tied, a coin toss will decide the higher ranking.
